

Two page memo

SSU-OVERT SERVICING OF A CLANDESTINE  
OPERATION

Unsigned, 13 June 46, SECRET

**SECRET**

TSD/H 119 WO(RID/ARD WASH DIR OPS 266  
Folder 548) 1/5/66

Unsigned memorandum officially logged into Dir SSU files, dtd 13 Jun 46, discusses the feasibility of an overt administrative program for clandestine activities provided there are covert cells within the admin program... "if you are to have a successful clandestine operation, the supporting phases of the operation must also be clandestine \*\*\*\*\*".

Comment: while the significance of this paper is not yet clear, we are logging it, feeling subsequent developments will provide the connecting links. SSU which has been almost entirely overt, is beginning to face up to the problem of de-surfacing to meet the peacetime requirements for clandestinity.
